

# NAV2PDF

NAV2PDF from IT Group International integrates seamlessly with Microsoft Dynamics NAV to enable users to send business documents such as purchase orders, remittance advices, and invoices securely and automatically as personalized PDFs directly from Microsoft Dynamics NAV.

NAV2PDF provides a significant and very rapid Return On Investment as it clearly provides reduced costs and time savings over more traditional methods of transmitting documents. Administration overheads are reduced as errors are removed and data accuracy improves.

Documents can be sent in batches of PDFs depending on the company's way of working. The production of professional PDF documents enhances the company's image and reputation with customers and suppliers.

NAV2PDF works with Microsoft Dynamics NAV Version 3 and upwards.

*"Since the implementation of NAV2PDF, we have been able to streamline business processes associated with the emailing of business documents from Navision and have found that the system has paid for itself in a very short space of time. I would certainly recommend any company, which uses Navision as its core financial system, to seriously consider NAV2PDF for the emailing of invoices and other Navision related documents."*
